

SR. .NET DEVELOPER
Professional Summary

Skilled .NET Developer with experience in the Web Development industry.

Skills

- ASP.NET, C#, VB.NET, WCF, Web Services, RESTful Services, Javascript, JQuery, Ajax, JSON, JSONP, HTML5, CSS3, PHP, SQL
- Experience migrating Windows based Server to Red Hat Linux based Server
- Windows, MAC OS, Ubuntu, Red Hat Linux
- Web Servers: IIS, Apache
- Third Party Controls: QuickBooks 18.0, Developer Express ASP.NET Controls for Reporting XtraReports, Aspose Cells / PDF / Slides
- Scrum / Agile
- Domains: ERP, e-Commerce, Financials, Medical, Telecommunications, Marketing, Pharmaceutical, B2B, B2C websites

Work History

Sr. .Net Developer , 03/2017 to 03/2018

Cognizant Technology Solutions â€“ Temple Terrace , FL

- 17+ years of experience in providing web-based application/solutions, Software design, development of engineering and Business applications and deployment of n-tier architecture.

Sr. .Net Developer , 03/2016 to 03/2017

Cognizant Technology Solutions â€“ Timonium , MD

- Implemented .NET Core API layer to authenticate and retrieve the list of Capital Expenditure Microsoft Sharepoint.
- Worked closely with Enablon (third party) to access their Web API.
- Developed HTML 5 web site to make it user friendly on Mobile devices.
- Supported existing vb.net web application.

Technical Lead / Sr. .Net Developer , 03/2011 to 10/2015

Asrc Federal Holding Company â€“ Eglin Air Force Base , FL

- Successfully worked as a technical lead in integrating existing .Net Web Forms Site with MVC Framework.
- Involved in migrating existing Windows based vBulletin Public Forms to Red Hat Linux OS.
- Worked closely with the developers in putting code together and standing up new kiosk(s) softwares (Windows Applications).
- Gathered enough technical skills, experience and knowledge in writing code for the hardware (like Coin Collectors, Bill Acceptors and more) Continuously communicating with the marketing as well as the business personal in gathering the requirements and guide the team members for completing the projects on time.
- Excellent team member and maintained great relationship with both Technical, Marketing and Management teams.

Sr. .NET Developer , 12/2009 to 12/2010

Bright Star Health Care â€“ City , STATE

- Displayed tremendous learning curve in understanding and creating WCF End Points and publishing and exposing them over IIS Developed Master Page and Business Components using LINQ that return Complex Types, IEnumerable , XmlDocument Used extensively .NET AJAX Controls to minimize the page refresh and provide a better user experience.
- Developed customer payments, prospects and optimization reports using SQL Reporting Services Developed validation both on client and server side using JavaScript and server validation methods Unit tested the application right from the beginning on cross-browsers.
- Worked closely with both Database and QA team members to reach the deadlines of the deliverables.
- Environment / Technologies: ASP.NET 3.5/ 4.0, Visual Studio 2008/ 2010, SQL Server 2008 Management Studio, Entity Framework (EF), LINQ, LINQPad, WCF, IIS 6.0/7.0, Windows 7 Ultimate 64 bit, JavaScript,.

Technical Lead / Sr. .NET Developer , 11/2008 to 11/2009

OmegaCube Technologies Inc â€“ City , STATE

- Involved in requirement analysis and designing the web solution.
- Involved in conversion of Remoting Services to WCF Service Requests.
- Incorporated Rich UI, user friendly responsive features in the Web Application using C#, JavaScript, Ajax Tool Box, AJAX.NET professional and Visual Studio 2008.
- Developed Master Page and Business Components.
- Written SQL Procedures, Functions and Triggers in Oracle 10g.
- Build Unicode Support and Server-Side Regular Expressions for Strict Server Side input Validations.
- Used Third Party toolkit Infragistics for Silverlight Application.
- Hands on experience in Windows Presentation Foundation (WPF).
- Assigned tasks to other team members Coded Advanced Search Capability and supported other team member technically.
- Used AJAX Tool Box, ASP.NET and AJAX.NET professional extensively for best UI's.

- Customized DevExpress EUD [End User Designer] to provide the ability to create edit reports by end users.
- Technologies Used: ASP.NET 3.0/3.5, Visual Studio 2008, Developer Express .NET v8.3/9.1/9.3, Oracle 10g, Infragistics, JavaScript, AJAX Tool Kit, ASP.NET, AJAX.NET, DHTML, CSS.

Sr. .Net Consultant , 05/2007 to 10/2008

IMSFASPAK â€“ City , STATE

- Involved in Requirement Analysis and Design of the new system
- Created UML (Class, Sequence and Component) diagrams using Visio.
- Designed and developed Win Forms using .NET 2.0 Framework.
- Designed and developed .NET components using C# and XML to communicating with Web Services.
- Developed ADO.NET based Database Access Layer against SQL Server Database.
- Used Data Grid, Combo Box, and Tree View Controls to display data in a Customized format.
- Handled Validation both on Client-Side also at Server-Side using JavaScript and Error Providers and Validating Events.
- Unit tested in Cross Browsers [Both Firefox and IE] The Project Management System is an ASP.NET 2.0 application, lets the customer service representatives, employees and Managers to Create, Edit, and View their Projects, Tasks, Tickets and Time Tracking System
- And Administration section to control the application.
- Designed Database for both Project Management and Time Tracking systems.
- Designed UI screens based on the requirements.
- Unit tested in Cross Browsers, application right from the start to shorten development time.
- Accessing C# Methods [Database Related] via AJAX Calls Collected all form fields and created JavaScript Objects and pass them to C# methods which communicate with Database.
- All the user entry fields [Form Fields] in Time Tracking System are building dynamically based upon user selections made and NO PAGE REFRESH is done, until user submits the entry for the entire week.
- Developed GMAIL like file upload interface.
- Technologies Used: ASP.NET 2.0/3.0, Visual Studio 2005, C#, SQL Server 2000/2005, JavaScript, AJAX, DHTML, CSS, AJAX Tool Box, ASP.NET, AJAX.NET, Aspose PDF / Cells / Slides.

Sr. .Net Consultant , 09/2006 to 05/2007

Discover Financials â€“ City , STATE

- User Management and Administration Tool provides User Administration, Billing and Payment Management functions.
- The major functions are registration and recording personal details, recording transfers to the different accounts and fraud usage claims.
- The Billing module looks into multiple modes of payment.
- Payment management includes recording Monthly Payments, categorization for reporting.
- Actively participated in collecting the requirements.
- Involved in conducting End-Users group meetings.
- Analyzed existing System and various source of information.
- Designed and developed Web Forms using ASP.NET.
- Prepared program specifications, use Case Diagrams and developed coding logic flowcharts.
- Handled Client-Side and Server-Side validations using JavaScript and ASP.NET Validation Controls.
- Applied AJAX in Web Forms using ASP.NET AJAX Controls in .NET 2.0 Framework.
- Involved in all phases of the Project Life Cycle and also analysis of the system based on n-tier architecture.
- Used ASP.NET Web Server Controls like Grid View, Data List and Repeater for displaying the records.
- Used Dataset, Data View and Data Adapter to manipulate and display Data.
- Used ADO.NET Database Connectivity for storage and retrieval of data from Database.
- Used CSS in ASP.NET pages.
- Used VSS-6.0 for configuration management.
- Used Crystal Reports for report generation.
- Created Stored Procedures, Views, and Triggers SQL Queries in Oracle 9i.
- Technologies Used: C#, ASP.NET 2.0, Visual Studio 2005, Web Forms, Oracle 9i, IIS 6.0, Crystal Reports.

NET Consultant , 02/2005 to 08/2006

SBC â€“ City , STATE

- Designed Windows Forms by using intrinsic WinForm Controls and Custom developed controls using C#.NET.
- Developed Custom Business Objects (Data Transfer Objects) using Typed Datasets, Custom Classes and Collections in C#.NET.
- Implemented XML Web Service methods for online mode of the application.
- Developed façade classes to encapsulate business rules and perform business operations in C#.NET.
- Written T-SQL stored procedures in SQL Server 2000 for CRUD operations.
- Used NUnit as Unit Testing Tool.
- Involved in Code review and Peer review of the application.
- Technologies Used: .NET Framework 2.0, C#.NET, XML Web Services, WinForms, SQL Server 2000, NUnit.

Sr. Web Consultant , 08/2004 to 01/2005

FIS Global â€“ City , STATE

- Automated Chargeback Enterprise System is an internal application designed and developed for FIS Global Chargeback Department Roles and Responsibilities: Involved in design and develop the entire application using Cold Fusion 5.0 from scratch.
- Learned WCS internal Technical Framework BORG and developed the entire application.
- Written JavaScript functions exclusively all over the application, and developed some nice functions like database driven JavaScript Calendar, dynamically setting Printer Preferences by calling Active X controls, exchanging SQL Server Data to JavaScript using WDDX etc.
- Worked closely with QA Personals and fixing issues right away in Development and QA environments.
- Technologies Used: Windows, IIS, ColdFusion 5.0, SQL Server 2000, Internal Framework BORG.

Web Consultant , 04/2004 to 07/2004

American Society Of Plastic Surgeons â€“ City , STATE

- <http://www.plasticsurgery.org> a full fledged e-commerce web application with an integrated shopping cart.
- Both members and non-members of ASPS can browse the web site as well as resource product catalog and members can buy their products online, using their Credit Cards.
- Involved in building new web site in ASP.NET from scratch.
- Involved in gathering current features from existing ColdFusion web site and new features from end-users and preparing action plan to build new web site using ASP.NET.
- Design and develop product catalog and online shopping cart using C# and ASP.NET Involved in setting up Security Certificate (<https://>) and enabling Client Certificate when the resource is accessed in folder properties Capabilities like Quick Order where the user can look up directly for the product they need and add it to cart.
- Used Java Script extensively to meet the client requirements, such as Dynamic Dropdown boxes.
- Technologies Used: Windows, IIS 4.0, ColdFusion MX, Dreamweaver MX, Oracle 9i, Toad 7.5.2 C#.NET, ASP.NET, ADO.NET, Web Forms, IIS, Visual SourceSafe, JavaScript, SQL Server 2000, XML, Web Services.

Web Consultant , 03/2002 to 03/2004

Color Associates â€“ City , STATE

- <http://www.r-vividcolor.com> is a Digital Archival Retrieval Technology.
- This web application is used by Project Coordinators & r-dart Managers of Color Associates to launch a new Project, Request for Quote, Issue and Approve a Quote (for Project coordinators) or Decline (for r-dart Managers), Draft Quote Requests, Route Files etc.
- Involved in configure ColdFusion 5.0 Application Server with Apache 1.3.24 Web Server.
- Written Application.cfm.
- Used WDDX with Java Script extensively to meet the client requirements, such as Dynamic Dropdown boxes Used CFContent to change ColdFusion MX charset default value.
- Used CFTry CFCatch to trap errors thrown on page and redirect page either to a generic error page or to the login page based on the type of error.
- Used CFDirectory to dynamically create directories and CFFile to create files with in the directory R-Dart Notes to Document work in Progress and to Research Completed work.
- Technologies Used: Macintosh, Windows, IIS 4.0, Apache Web Server 1.3.24, ColdFusion 5.0/MX, SQL Server 2000, Windows 2000, OS X.

Web Consultant , 12/2000 to 02/2002

Bayer Corporation â€“ City , STATE

- <http://www.bayervalue.com> is a business-to-business site that has instant access to Sales & Compensation information about the company.
- Bayer's distributors & agents can view their commissions, invoices, orders, inventory, sales forecast, etc.
- Roles and Responsibilities: Wrote modules for header and footer templates and called them all over the site using CFModule.
- Wrote Stored Procedures in Oracle 8i for calculating Inventory, Invoicing, Commissions and Check History.
- Involved in setting up the ColdFusion mail server connection with Bayer's mail server - called a Cold Fusion template for mailing (using tag).
- Technologies Used: Windows NT, IIS 4.0, ColdFusion Server 4.5/5.0, Oracle 8i, Microsoft Query Version 8.00e, WinVNC (Virtual Network Computing), Photoshop 6.0.

SQL Server Administrator , 09/2000 to 12/2000

SBC â€“ City , STATE

- Building and maintaining of Web Servers in Windows NT environment.
- Installing IIS, MSMQueing all the servers, Imaging Servers, MSMQ cleanup & trouble shooting e-Workplace's procurement & expenses modules.
- Roles and Responsibilities: Data transfer between databases, Reverse Engineering and forward engineering the database, to transfer the schema from SQL Server 6.5 to SQL Server 7.0.
- Used Round Robin Technology for Load Balancing & Performance tuning.
- Technologies Used: Windows NT, IIS 4.0, Concur's e-Workplace, pcAnywhere, Symantec Ghost 6.5, Data Gate v3.1.1, ERWin, FTP Serv-U , SQL Server 6.5/7.0, Oracle 8.0.

Web Consultant , 06/2000 to 09/2000

Imagine That â€“ City , STATE

- <http://www.labelmaster.com> is an on-line shopping cart where a customer can purchase warehouse supplies, safety labels, regulatory information, etc.
- Roles and Responsibilities: Wrote the functionality in ColdFusion for sections like Home page, Catalog Sections, Compliance News, Value plus Accounts, and Alliance Programs etc.
- Developed New Catalog featuring new Keying System and Clear Layout.
- Used WDDX components for target platforms to serialize and de-serialize data into appropriate data structure and move data between application servers.
- Wrote Procedures to update User Preferences (like the Front End Screen appearance) when modified.
- Technologies Used: Windows NT, ColdFusion 4.5, Oracle 8.0, Database SQL Server 7.0, ColdFusion 4.5 Studio, Photo Shop 5.5.

Web Consultant , 01/2000 to 06/2000

Metro Technologies Inc â€“ City , STATE

- <http://www.madcash.net> is a payment option for online shopping carts specifically for teenagers.
- This is a B2C site for retailers and teenagers.
- Designed on SQL Server 7.0 as the database and ColdFusion 4.5 Studio as the Site development tool.
- Roles and Responsibilities: Designed on SQL Server 7 and ColdFusion 4.5 Studio Worked on Data Modeling to design the schema and architecture as per the application.
- Used Java Script and ColdFusion for client side form validations Used custom tags, CFInclude, CFLocation tags extensively for functionality of the system Used CFStoredproc and CFProccparam tags to access the procedures, which reside at the back end.
- Technologies Used: Microsoft Windows NT 4.00.1381, IIS 4.0, Windows 98, ColdFusion 4.5, HTML 4.0, JavaScript, MS SQL Server 7.0.

Web Consultant , 07/1998 to 12/1999

Little Lady Foods â€“ City , STATE

- Distribution Information Scheduler is an office automation application deployed over the Intranet.
- The templates are used to design the interactive screens that interface with the various distribution functions and are developed using ColdFusion Studio.
- Involved in analysis and design phase of the distribution project Developed UI's for Shipping of Orders, Back Orders, Re-Shipping and Returns.
- Used Cold Fusion Studio, Forms, Tables, and SQL Query Builder extensively Incorporated Client Side Data Validation using JavaScript feature of Cold Fusion Connected database to CFML templates via ODBC data sources Wrote stored procedures and integrated them in ColdFusion Technologies Used: Microsoft Windows NT 4.00.1381, IIS 4.0, ColdFusion 4.0, Crystal Reports 4.0, SQL server 6.5, ColdFusion 4.0 Studio, HTML 4.0, JavaScript.

Skills

.NET v, .NET, .NET 2.0, Microsoft .NET, VB.NET, ASP.NET 4.5.2, C#.NET, ASP.NET 2.0, ASP.NET 3.0, ASP.NET 3.5, ASP.NET, Active X, ADO, Dreamweaver, Photoshop, Photoshop 6.0, Photo Shop 5.5, Agile, AJAX, Apache, Apache 1.3.24, Apache Web Server 1.3.24, API, approach, ASP, B2B, Billing, Browsers, Business Objects, business operations, Catalog, CFML, CGI- Perl, client and server, ColdFusion 5.0, Cold Fusion 5.0, ColdFusion, Cold Fusion, ColdFusion Studio, Cold Fusion Studio, ColdFusion 4.0, ColdFusion 4.5, Color, com, configuration management, conversion, Credit, Crystal Reports 4.0, Crystal Reports, CSS, Client, customer service, Data Transfer, Data Modeling, Data Validation, databases, Database, database design, designing, DHTML, e-Commerce, Edit, ERP, ERWin, XML, fast, features, Financials, Forms, FTP, Ghost 6.5, HTML, HTML 5, http, HTML 4.0, PHP, DB2, IIS, IIS 6.0, Imaging, in design, IE, IIS 4, Inventory, Invoicing, JavaScript, Java Script, JQuery, Layout, logic, Notes, Macintosh, MAC OS, mailing, marketing, Marketing and Management, meetings, Access, C#, mail, Microsoft Sharepoint, SQL Server 6.5/7.0, SQL Server 2000, MS SQL Server 7.0, SQL Server 7, SQL Server 6.5, SQL Server 7.0, Windows 7, Win, Windows, Windows 2000, 2000, 3.1, Windows 98, Microsoft Windows NT 4.00.1381, Windows NT, MSMQ, MVC, nice, Netscape, Enterprise, Network, ODBC, office automation, Operating Systems, OS, optimization, Oracle 9, Oracle 7.3, Oracle 8.0, Oracle, Oracle 8i, Developer, PAGE, pcAnywhere, PDF, Peer review, Printer, procurement, develop product, coding, Progress, Project Management, QA, Express, Quick, QuickBooks, recording, Red Hat Linux, reporting, Requirement, Research, safety, Sales, Scrum, Servers, Scripting, Shipping, Software design, Visual SourceSafe, SQL, SQL Server, Symantec, Tables, team player, Telecommunications, Toad 7.5.2, T-SQL, trouble shooting, type, UML, Validation, View, Visio, Visual Studio, Web Servers, Web Server, web site, websites, Written, XHTML

Education

Bachelors : Electronics Engineering , Electronics Engineering

Oracle Certified in Oracle 7.3 :
