

## JAVA DEVELOPER

### Summary

- JAVA developer with 3+ Years of experience in implementing Java/J2EE projects, working through Analysis, Design, Development, Testing, Implementation in Client/Server and web based n-tier architecture systems.
- Expertise in development and deployment of multi-tiered web based enterprise applications using Java, J2EE, Servlets, and JSP, JDBC and web services like Axis 1, Axis 2, SOAP, RESTful, Metro and Apache CXF.
- Great understanding of OOPS Concepts and experience in agile iterative development methodology.
- Expertise in client side designing and validations using HTML, CSS, Java Script, Servlet's, JSP Angular.Js, and XML.
- Familiar working with databases like Oracle and MySQL.
- Experience in designing and coding stored procedures, Triggers and Functions using PL/SQL and also coding SQL queries.
- Expertise in developing test cases with JUnit and SOAPUI.
- Extensive development experience on different IDE's like Eclipse for debugging and using java coding standards.
- Good experience in Software Version Control Configuration Management tool like SVN and Tortoise SVN.
- Expertise with Building Tools, Maven and Ant and writing scripts with Ant.
- Always open to learn new emerging technologies accordingly.
- Quick learner and a motivated team player.
- Like digging into new areas of technology and always ready to accept new roles and responsibilities.
- Authorized to work in the US for any employer. â€œ

### Professional Experience

Java Developer Oct 2015 to Current

Adobe Systems Incorporated 1/4 Akron , OH

- Developed and implemented MVC (Model-View-Controller) framework using spring for the application.
- Implemented application level persistence using Hibernate and spring.
- Developed Hibernate DAO classes and with the spring framework manager classes retrieve and save the data from the database.
- Implemented MVC architecture using Struts framework.
- Used Java Script along with HTML5 and CSS for designing the user interface layers.
- Developed Data Access Objects (DAO) and SQL queries to support the system functionality.
- Involved in the deployment process of code into development, staging and production environments.
- Developed additional UI Components using JSF.
- Responsible for developing GUI / user interfaces using JSP, CSS, HTML and HTML5.
- Consumed Web Services using Axis 1, Axis 2, Metro, SOAP, RESTful and Apache CXF framework for getting information.
- Generated and deployed WAR and EAR files using Maven, and Tomcat Application server.
- Developed and implemented user interface in model view controller architecture, which accomplished a tight and neat co-ordination of struts MVC, JSP, Servlets and custom Taglibs.
- Worked on JUnit for overall code coverage.

Environment: Java, Hibernate, Spring MVC, JSP, Servlets, Struts, Java Script, HTML5, CSS, Eclipse, Tomcat 7, Maven, Junit and Oracle.

Java Developer Jul 2013 to Jun 2014

Adobe Systems Incorporated 1/4 Hillsboro , OR

- Involved in the Software Development Life Cycle (SDLC): Design and Code Development phases.
- We usually follow agile methodology.
- Shortened the development life cycle with use of Java, J2EE framework, design patterns, standards and tools.
- Involved in developing Use Case diagrams, Class diagrams and Sequence diagrams to express the detail design.
- Designed and developed the User Interface using JSP, HTML5, CSS, and Javascript.
- Used Multithreading to do the application development and for running the different tasks at the same time.
- Implemented back-end on Java using Servlets, JSP and database on Oracle.
- Developed the Servlet and Data Access Layer classes and used JDBC API for interaction with the Oracle Database.
- Involved in writing SQL Stored Procedures which operate over customer order data stored in Oracle.
- Mapping of the Servlet in the Deployment Descriptor.
- Used JUnit for unit level testing.

Environment: Java 1.6, JSP, Servlets, HTML, CSS, XML, JavaScript, Oracle 10g, Eclipse.

Java Developer Jul 2012 to Jun 2013

Adobe Systems Incorporated 1/4 Lyon , MS

- Involved in the complete Software Development Life Cycle including Requirement Analysis, Design, Implementation, Testing and Maintenance.
- Created UML class and sequence diagrams using Rational rose.
- Developed the business tier using Core Java and Servlets.
- Designing the front end using Servlet's, JSP, Javascript, CSS, and HTML as per the requirements that are provided.

- Worked on an existing website, adding functions and enhancing the overall design to give it a new look - Analyzed collected data and monitored its suitability to ensure successful functioning of the website.
- Developed interactive and user friendly web pages using JSP, CSS, HTML, JavaScript.
- Created table rows with radio buttons using HTML.
- Used JDBC to communicate with the Oracle database and to retrieve the data for various modules.

Environment: Java 1.6, Servlet's, JSP, Javascript, Html, CSS, Eclipse, Rational Rose, Oracle.

Internship Mar 2011 to Feb 2012

International Food Policy Research Institute 1/4 Washington , DC

- Involved in the analysis, design, and development and testing phases of Software Development Life Cycle (SDLC) using JAVA and J2EE.
- Actively involved in different project requirements and planning meetings.
- Direct interaction with the end users for requirement analysis.
- Designed UI screens using HTML, JavaScript, and CSS for client side validation.
- Involved in session beans for business logic and JSP/Servlets, for presentation layer using Struts.
- Created stored procedures and PL/SQL statements to interact with the MS SQL SERVER database.
- Involved in preparing the best practices for Java Code.
- Designed & implemented Entity beans using JDBC technology to access Oracle database, and Session beans to implement business logic.
- Used Entity beans for portability and performance.

Environment: Java 1.6, Html, CSS, Javascript, Servlet's, JSP, Oracle 10g.

Education

Master of Science , Computer Science 2015 Northwestern Polytechnic University 1/4 City , State , USA GPA: 3.71/4.0

Bachelor of Technology , Computer Science 2012 Balaji Institute Of Engineering & Sciences 1/4 City , State , INDIA GPA: 66.71%/100.00%
