Experience

January 2003

to

January 2015

Suny Plattsburgh Plattsburgh, NY EDI Business Analyst III

- A provider of revenue and payment cycle management and clinical information exchange solutions, connecting payers, providers, and patients in the U.S.
- Healthcare System
- Claims Analysis Monitored daily claim transactions to and from the payer by ensuring acknowledgements were returned by the payer (ex. Electronic reports (997/999, 277/277CA, Proprietary reports), verbal, e-mail acknowledgments, in-house logs, etc) for every daily outbound (837P, 837I, 837W) files.
- Hands-on in detailed analysis of EDI transactions, claim data error/s reported by the payers, determined claims affected by the issues, resolved the errors, corrected and ALEGRIA E.
- TENORIO h- 714 995-1207 c-714 496-3952 re-submitted failed files/batches through front-end edits thereby reducing rejections of claims at the front-end, ensuring payments and increasing claims revenue.
- Research Analysis Coordinated with Development and Integration Architecture teams to align the clearinghouse's front-end validations with that of the payer.
- Provided technical support both in-house and external on EDI issues with enrollment, claims/tracking, payments, and/or clearinghouse activities.
- Effective liaison between healthcare clearinghouses and payers resulting to successful claims processing using Microsoft products (Word, Excel, Access) and Salesforce.
- Assisted other teams in transitions and implementations of payers to 5010 or new payer routing using extensive knowledge of ANSI X12N 5010 HIPAA transaction set formats 837, 277/277CA, 997/999 and working knowledge of 835, 270/271, NSF formats, mapping, Implementation Guides, Companion Documents, HIPAA Standards.
- Coordinated with payers on changes that affect transmissions and claims processing and request edits via Salesforce to address the cause of HIPAA compliancy or transmission failures.
- Production Analysis Monitored the in-house Batch and File Level Payer Report Processing (INS).
- This process handles all payer reports (997/999, 277/277CA) for parsing.
- Performed troubleshooting issues on parsing and address them internally or with the payers.
- Managed reports/acknowledgements (997s, Summary Reports, proprietary reports) to and from the payers site via communication protocol set-up between clearinghouse and the payer using in-house Payer Communications System (PCS).

Beech Street Corporation/Healtheon Analyst/Programmer

- Implemented and supported the company's Employee Identification System (EIS) involving design and analysis, heavy coding in COBOL/400, user testing, training and documentation.

Comprehensive Care Corporation Programmer/Analyst

- Assisted manager in maintaining healthcare and financial system
- Created instructions/documentations.
- Programmer/Analyst at Pacificare.
- Worked as a contractor with a team supporting Enrollment.
