

SHAREPOINT WEB DEVELOPER

Career Overview

Currently a SharePoint Web Designer for ARMA Global Corporation at Macdill AFB . I have three years of experience in Software development life cycle and more than three years of experience in technical support. Excellent computer skills and highly knowledgeable in Microsoft application software and many other software applications from other vendors. I'm highly motivated which allows me to strive for proficiency when accomplishing assigned duties. Supporting the Combined Joint Task Force "Operation Inherent Resolve (CJTF-OIR) I received the Bronze Commendation Award by Brigadier General(BG) Furinil, for my excellent support of the mission. I am accustomed to handling sensitive and confidential records and have established a history of having accurate, timely and efficient results in all the tasks assigned to me. I am very flexible, versatile and can deal with time sensitive situations by maintaining a sense of humor, even under pressure of completion. I am an excellent team player. I try to create a positive environment throughout the workplace.
