

CIGNA - SENIOR ASSOCIATE

Professional Summary

13+ years of rich experience in developing applications including DashBoards using Java/J2EE and Oracle/PostGres Database in the domain of Healthcare , Banking and Retail which includes analysis on requirements gathering, designing and implementing the applicable secured solutions to better serve the needs of business partners .

Skills

- Java/ J2EE (Servlet, JSP)
- Spring Boot, Spring MVC
- D3 V5
- Maven , Jenkins, PCF
- Hibernate
- Oracle, Teradata, PostGres , SQL Server
- Git , SVN
- Eclipse, NetBeans, Visual Studio Code
- Web Services
- React JS
- Javascript ,Ajax ,BootStrap,CSS,HTML,JQUERY
- Tomcat 9, WebSphere, JBOSS,
- JDBC
- Junit
- SonarQube
- Linux
- Agile, Process improvement
- Charts, SDLC
- CSS, Servlet
- Client, SLA
- Designing, SQL Server
- Eclipse, Stories
- FTP, Struts
- Functional, Teradata
- HTML 5, Tomcat 9
- HTML, Visual Studio
- WebSphere, Web applications
- Instructing
- J2EE
- Java
- JSP
- Javascript
- JBOSS
- JDBC
- Linux
- Logic
- MIS
- MVC
- Oracle
- PostGres

Work History

Cigna - Senior Associate , 04/2011 to Current

Mount Laurel, NJ

- 11+ years of experience in all phases of SDLC - Planning, Analysis, Design, Implementation, Testing of various web applications.
- Major experience in providing technical solutions for business needs by building frameworks and implementing web based distributed applications using Java/J2EE deployable in PCF.
- Experience in Front End development using React JS, BootStrap, JQuery, Ajax, Javascript, HTML 5, CSS.
- Hands on experience in data visualization tools using D3 V5 for creating interactive charts for building dashboards with React JS.
- Extensive experience in developing web applications using Spring Boot , Spring MVC, Hibernate framework and micro services.
- Solid background in writing SQLs for Oracle, PostGres and Teradata.
- Good experience in resolving security vulnerable issues in long standing legacy web applications as well in new developing applications.
- Guide the team in identifying critical business needs by communicating with business team and prioritize the User Stories in Agile methodology.
- Trained the new members and new joiners on newly developed applications and instructing them to develop highly secured web applications using new technology.
- Lead project releases and manage to deliver on agreed upon dates.

Associate Projects , 01/2010 to 03/2011

Verizon Communications “Easley”, SC

- Preparing the technical design documents which cover the client requested functional changes.
- Implementation of the Business Logic including development and unit testing and reviewing with the team members.
- Also involved in guiding our team members to complete the tasks within the deadline.12x7 on call support for the applications handled.
