Development Project Manager
January 1998 to January 2002 Quality Technology Services ï¼ Atlanta , GA

- Responsible for mainframe, client server and WEB application enhancements, maintenance, production support and reduction of recurring production problems.
- Managed multiple large and small projects meeting milestones on time and on budget; Converted legacy Inventory Allowance to a WEB base Sales Planning application used in Stores.
- Developed ASN Supplier Compliance DB2 database to capture EDI 856 transaction errors used in supplier compliance reporting and penalties.
- Developed WEB based application providing Retail Stores with a view to Stock Ledger.

Application Specialist
January 1991 to January 1998 Crane Co. ï¼ Carlsbad , CA

- JCL, IBM Utilities, VSAM, DB2, DYL280, Transaction Metadata Mapping, HTML Technical Support EDI platforms and processes for JCPenney and Eckerd Drug examples are; Responsible for design/development of EDI platforms and developed an Online CICS Trading Partner setup and maintenance screen for JCPenney and Eckerd Drug that interfaced to GENTRAN software.
- Responsible for developing ANSI X12 and EDIFACT GENTRAN maps supporting multiple transaction sets to support application areas processing the same documents with varying business requirements.
- Processed approx 15+ million inbound and outbound ANSI X12 and EDIFACT transactions monthly.
- Developed DB2 database for research and EDI transaction tracking.
- Responsible for installation of GENTRAN EDI software implementations patches and upgrades.
- EDI Network communications VIA SUPERTRACS with GE, Sterling Commerce and Vendor Direct lines.

IT Application Specialist
January 1989 to January 1991 Aurecon ï¼ Manila , AR

- JCL, IBM Utilities, VSAM, IMS, DB2, DLY280 Retail Stores application support and development examples are; Participated in design, development and implementation of a DB2 database for Stores automating stock room receiving VIA EDI 856 ASN (Advance Ship Notice) by scanning carton barcodes and automatically receiving carton contents in EOF (IMS database).
- Designed, developed and implemented Retail Stores automated receiving VIA the EDI 856 transaction (Advance Shipping Notice).
- Designed, developed and implemented Retail Stores auto-replenishment Purchase Order processing VIA the EDI 855 transaction (Purchase Order Acknowledgment).

Programmer Analyst
January 1986 to January 1989 Imt Insurance ï¼ Omaha , NE

- JCL, IBM Utilities, VSAM, IMS, EASYTRIEVE, SAS, IRL (International Reader Language) Manufacturing Application Development and Support; Participated in developing an Online CICS User Security application using encoding/decoding to support password protection.
- Provided IMS DBA support for the IMS Serial Tracking Warranty Services database.
- MACPAC manufacturing software implementations of patches and upgrades.
- Developed tracking application to track Telecommunication Switches using hand held scanners that scanned switch barcodes.

Programmer Analyst
January 1979 to January 1986 Imt Insurance ï¼ Sioux Falls , SD

- JCL, UCC1, UCC7, IBM Utilities, VSAM, IMS, EASYTREIVE Manufacturing Application support and development examples are; COMSERV AMAPS manufacturing software implementations of patches and upgrades.
- Participated in the conversion of all VSAM applications to IMS.
- Participated in implementation of UCC7 Automated Scheduling, defining, loading and automating I.T.
- batch processing schedules.

Education
B.A : Liberal Arts , 1971 Parsons College ï¼ City , State GPA: GPA: 4.0

Liberal Arts Degree, Major History

Select One : Computer Science Brookhaven College ï¼ City , State , USA

Computer Science Continuing Education
